

Bill with accuracy

Bill even the most complex products with confidence. Our billing module has been designed with integration of pricing in mind, to allow fast, automated invoicing. Our Billing Engine software, P-BE, seamlessly integrates with our Pricing Engine for even the most complex products. No granularity is lost.

Benefits of using P-BE

PURPOSE BUILT

Designed by highly skilled Phidex software experts, P-BE enables any of your products to be billed accurately and with confidence.

GRANULAR DETAIL

P-BE calculates every billing element at its most granular level allowing for unlimited Time Of Day tariffs to be applied to unrestricted billing periods.

INNOVATIVE

P-BE enables you to bill the innovative products that you always wanted to offer.

UNRIVALLED INSIGHT

Integrated with our Pricing Engine, P-BE offers reporting that provides unrivalled insight.

FLEXIBLE INTEGRATION

Easily integrated with other industry applications and finance packages.

The power of P-FM, P-DA, P-PE and P-BE together

Link Phidex specialist software together to maximise your opportunity to save lost revenue, create efficient billing and have unrivalled analytics. A format that offers a confident solution, tailored around our your business needs.
